

Sub.: **An appeal for support** in the 4th National Conference on Innovations in Indian Science, Engineering & Technology 2017 (Bilingual:English & Hindi) **under the focal theme of RURAL HOUSING** – reg.

Dear Colleagues / Researchers (**NPL Fraternity**)

Under the auspices of *SSM'D (A non-profit making multifarious forum: [http:// www.swadeshisciences.org](http://www.swadeshisciences.org) having the network with many R&D & Educational institutions in the country) in collaboration with **CSIR-National Physical Laboratory**, we would like to organize the 4th National Conference on Innovations in Indian Science, Engineering & Technology "NCISET 2017" (Bilingual: HINDI & English) tentatively during Feb. 25-26, 2017 in the capital (Venue: NPL Auditorium). Further, following our cherished legacy in Astronomy; the likes of Aryabhatta, Varahamihira, Brahmagupta, Lalla and so on, this has lent considerable fillip to the Hon'ble Prime Minister's clarion call "Make in India" in line with one of the recent greatest feats of low cost indigenous 'Mangalyaan' [@INR 7/- per Km. as mentioned by **Sh. Narendra Modiji, our Hon'ble President, CSIR**] towards further motivating the young minds, scientists and students throughout the nation to tread on a path of excellence & grass-root innovation through a targetted research now with a new vigour where the focal theme of the said Conference being "RURAL HOUSING" is also highly relevant.

In view of the above facts, I consider it worthwhile to appeal you to kindly consider supporting the programme in view of the relevance of CSIR working in similar socio-scientific endeavours of such material developments, etc. and send your input

(i) reg. the relevant organizations/resource persons whom we can approach for interaction and

(ii) reg. the concerned scientists of your department who are either working in such mission or will orient themselves in such R&D endeavours hereafter and

(iii) reg. your own interest in the said focal theme of the Conference & the research areas of your lab. under which rural housing kind of mission will fit in

After hearing from you, we will decide the preparing the 1st Brochure alongwith organizational structure in the next meeting scheduled during the last week of Jan. 2016 where we intent to involve pro-active researchers from all parts of the country

Director, NPL has kindly decided to support us in this Nationalistic venture.

Kindest regards
15.1.2016

Bhavadiya
